

I would not do business with any bank having anything to do with changing the present Do Not Call List.

I believe Indiana's Do Not Call List should stay the way it is. I have benefited greatly from this law. In fact, a company I had done business with only once started calling me persistently even though I told them I wasn't interested in doing more business with them. Using the Do Not Call List, the Attorney General was able to fine the company and get them off my back.

If the EBR exemption was allowed, it would greatly weaken our present law. Please do not change the Indiana Do Not Call List law!!!!

I will not do business with any bank petitioning for the change of this law.
